MESSAGE FROM BOARD

MAKEPaint is an authentic Indonesian-made product. Ready to support the nation's development and ready to Go International. We innovate along with the market developments and technology, in order to improve the quality of our products and services. Quality assurance and customer satisfaction are our priority.

Driven by skilled and experienced workforce, we are able to align our selves with the competition, so that our products becomes a reliable and trusted mainstay in the country. In the present and the future.

Finally we express our most gratitude to our customers, clients, and supporters for their trust in MAKEPaint, to provide us with the opportunity to provide the best products and services. MAKEPaint will continue innovate and improve in quality and innovation, both for the Indonesia and International fields.

MAKEPaint adalah produk buatan Indonesia yang asli. Siap mendukung pembangunan bangsa dan siap Go International. Kami berinovasi bersama dengan perkembangan pasar dan teknologi, untuk meningkatkan kualitas produk dan layanan kami. Jaminan kualitas dan kepuasan pelanggan adalah prioritas kami.

Didorong oleh tenaga kerja yang terampil dan berpengalaman, kami dapat menyelaraskan diri kami dengan pesaing, sehingga produk kami menjadi andalan andalan di negara ini. Di masa sekarang dan masa depan.

Akhirnya kami mengucapkan terima kasih yang sebesar-besarnya kepada pelanggan, klien, dan pendukung kami atas kepercayaan mereka pada MAKEPaint, untuk memberi kami kesempatan untuk memberikan produk dan layanan terbaik. MAKEPaint akan terus berinovasi dan meningkatkan kualitas dan inovasi, baik untuk bidang Indonesia maupun Internasional.

RESEARCH & DEVELOPMENT

With skills, experience, capability, and reliability, our team of experts are able to innovate to compete with the development of the technology used in the paint industry. We continue to create superior products with the highest quality to be embraced and drive the Industry forward.

Dengan keterampilan, kemampuan yang handal dan berpengalaman, tenaga ahli kami mampu untuk terus berinovasi seiring perkembangan teknologi dan industri cat nasional. Penelitian dan pembuatan produk-produk unggulan yang terbaik agar bisa selalu diterima di masyarakat.

QUALITY CONTROL

SPRAY TEST

Test spray dilakukan dengan menggunakan plate panel, hasil aplikasi spray dilakukan cek terhadap gloss, kesesuaian warna cat dengan master daya tutup area, ketebalan, dll. terhadap bidang yang di cat.

Spray test is performed using a panel plate spread application result do check conducted on gloss paint matching colour with the master check of covered area, thickness and others areas of the field that is painted.

CHECK GLOSS

Proses ini dilakukan untuk mengukur daya kilap cat sesuai standar yang ditetapkan dengan menggunakan Gloss Meter.

This Process to measure the gloss paint appearance conducted with standard that have set, to check using a Gloss Meter.

CHECK HARDNESS

Melakukan cek kekerasan atau kekuatan cat dengan menggunakan Pensil Hardness Tester, cat tidak boleh baret atau mengelupas, atau disesuaikan dengan standard yang sudah ditetapkan.

Hardness and strengtness checks using a Pencil Hardness Tester, the point should not be scratched or chipped.

PULL OF TEST

Proses ini dengan menggunakan system pengecatan berlapis, untuk diuji daya rekat.

Pull adhesion test using a layered painting system, for testing adhesion.

CHECK THICKNESS

Check ketebalan cat dengan menggunakan Thickness meter, ketebalan cat disesuaikan dengan standart yang sudah di tetapkan.

Check the thickness of the paint by using a thickness adjusted to the standard that has been set.

PRODUCTION

Supported by skilled and disciplined workforce, leaning on the rules of SOP. We utilize our resources to give the most optimal out put and quality within the production. Preventive measures are regularly conducted to ensures mooth production. The a dequate production capacity we possess ensures our stocks ready in a timely manner to fulfill the needs and satisfaction of our customers.

Didukung oleh tenaga kerja yang terampil dan disiplin, berpacu pada aturan SOP. Kami memaksimalkan sumber-daya untuk memberikan hasil dan kualitas terbaik dalam produksi kami. Tindakan pencegahan dilaksanakan secare periodik untuk memastikan produksi berjalan lancar, dan kapasitas produksi yang memadai untuk memastikan kesediaan stok yang tepat waktu untuk memenuhi kebutuhan dan kepuasan customer.

INVENTORY

Extensive warehouse placement of finished goods, warehouse materials, and production area. In accordance to fulfill our H-3 System (Goods to be ready in less than three days). Also ensuring safety, hygiene, and tidyness in accordance to the FIFO system (First in, First out) that facilitates smooth product tracking, clear identification, and accurate administration.

Gudang penempatan barang jadi, gudang stock bahan baku, serta area produksi yang cukup luas, sehingga dapat menampung produk barang jadi sebagaimana sesuai dengan system kami yakni H-3 (Kesiapan barang jadi kurang dari 3 hari), kondisi aman, steril, dan rapih sesuai sistem FIFO (First In First Out) yang memudahkan penelusuran produk, identifikasi yang jelas, serta administrasi yang akurat.

DELIVERY

Readiness of a fleet of trucks with various capacities, to deliver goods to customers, as a guarantee of timely delivery, which always prioritizes the safety of both goods and drivers so that goods can be received in good condition.

Kesiapan armada truck dengan berbagai kapasitas, untuk mengantar barang ke customer, sebagai jaminan pengiriman tepat waktu, yang selalu mengutamakan keselamatan baik barang maupun pengendara sehingga barang dapat diterima dengan kondisi baik.

MARINE & PROTECTIVE COATING

ALKYD COATING

Make 201 ZP / Zinc Phosphate Alkyd Primer
Make 202 / Zinc Chromate Alkyd Primer
Make 203 / Red Lead Alkyd Primer
Make 204 / Synthetic Alkyd Primer
Make 205 / Alkyd Gloss Enamel Finish
Make 206 / Alkyd Gloss Finish QD
Make 207 / Zinc Phosphate QD Primer

ACRYLIC COATING

Make 800 P / ACR Solvent -
Base Primer
Make 800 / ACR Solvent Base Gloss

POLYURETHANE COATING

Make 700 / PU Finish Gloss
Make 700S / PU Finish Satin

HEAT RESISTING COATING

Make 200 / Heat Resistance
Finish Coat - (to 200°C)
Make 400 / Heat Resisting
Finish Coat - (up to 400°C)
Make 600 / Heat Resisting
Aluminium Finish - Coat (up to 600°C)

ZINC COATING

Make 301 / Modified Inorganic Zinc Rich Primer
Make 302 / Zinc Rich Epoxy Primer
Make 303 FT / Inorganic Zinc Silicate Primer
Make 304 / Inorganic Zinc - Rich Primer
Make 305 SP / Inorganic Zinc - Shop Primer

EPOXY COATING

Make 601 / Epoxy Mastic - High Solid
Make 601 AL / Epoxy Mastic Aluminium
Make 602 / Epoxy Etching Primer
Make 603 / Epoxy Universal Primer
Make 605 / Epoxy Tie Coat
Make 605-UWC / Epoxy Under Water
Make 606 / Epoxy Class Flex
Make 607 / Polyimide Cured Epoxy
Make 608 / Multipurpose Epoxy
Make 609 / Non Inhibiter Epoxy Primer
Make 610 / Polyamide Epoxy Lining
Make 611 / Polyamide Epoxy Finish Satin
Make 611 GL / Polyamide Epoxy Finish Gloss
Make 612 ZP / Zinc Phosphate Epoxy Primer
Make 613 / Epoxy Finish Phenolic
Make 614 / Coal Tar Epoxy Polyamide
Make 666-000 / Epoxy Primer Floor Polyamine
Make 661-001 / Epoxy Primer Floor Polyamide
Make 666-100 / Epoxy Finish Self Leveling
Make 661-100 / Epoxy Finish High Gloss
Make 661-101 / Epoxy Finish Non Skid
Make 666-001 / Epoxy Concrete Primer HB
Make 660-001 / Epoxy Primer Anti Static WB
Make 666-100 AS / Epoxy SL Anti Static
Make 666-100 NF / Epoxy Floor Novolac Chemical Resistant
